THE UNIVERSITY OF SYDNEY

The background of the slide is a photograph of the University of Sydney's main building, a large, ornate stone structure with multiple towers and spires. The building is set against a clear blue sky. In the foreground, there is a green lawn and a paved path leading towards the building.

The University of Sydney is Australia's first university, and proudly boasts a campus that makes it one of world's top 10 most beautiful universities (we're basically Hogwarts!)

Snakes, spiders, poisonous jellyfish, you name it, we've got it all! Don't let that scare you off though, it's well known that Aussies are possibly some of the nicest people you'll meet! Want to hug a koala or box with a kangaroo? Or try our famous Vegemite? Visit us down under!

Used instead of freshman, sophomore, junior, senior.
Why? To be a “senior” implies that a person has reached the final phase of learning, a feat that Mr. Jefferson (Thomas Jefferson) believed impossible, arguing instead that education is a life-long process.
